PRICE LIST - FALL 1935 - SPRING 1936

We are herewith making a preliminary offer of such Lining Out Stock that should make up into proper planting sizes. It is needless for us to dwell on the Quality of Connecticut Valley Grown Lining Out Stock such as we have produced for many years. Some peculiar soil or climatic condition, or possibly a combination of both, enables us to produce lining out stock of a very superior, well balanced root system, full of pep and vigor. We sell millions of Lining Out Stock every year and receive many letters of commendation.
